<− Enriched in pooled Y+
Enriched in LOY −>
Potassium Channels ***
Dna Strand Elongation Involved In Dna Replication *
Activation Of Atr In Response To Replication Stress **
Homologous Dna Pairing And Strand Exchange **
Diseases Of Dna Repair **
Hdr Through Homologous Recombination Hrr **
Neuronal System ***
Recruitment Of Numa To Mitotic Centrosomes **
Dna Templated Dna Replication **
E2f Targets ***
Mitotic Prometaphase **
Dna Replication **
Cell Morphogenesis Involved In Neuron Differentiation **
Cell Cycle Mitotic **
Axon Development *
Blood Vessel Morphogenesis **
Response To Bacterium **
Leukocyte Migration **
External Encapsulating Structure Organization **
Lytic Vacuole Organization **
Extracellular Matrix Organization ***
Ecm Proteoglycans ***
Collagen Biosynthesis And Modifying Enzymes ***
Interferon Gamma Response ***
Epithelial Mesenchymal Transition ***
Assembly Of Collagen Fibrils And Other Multimeric Structures ***
Collagen Chain Trimerization ***
Collagen Degradation ***
Integrin Cell Surface Interactions ***
Interferon Alpha Response ***
