<− Enriched in pooled Y+
Enriched in LOY −>
Potassium Channels ***
Activation Of Atr In Response To Replication Stress **
Diseases Of Dna Repair **
Homologous Dna Pairing And Strand Exchange **
Hdr Through Homologous Recombination Hrr **
Recruitment Of Numa To Mitotic Centrosomes **
Neuronal System ***
Dna Templated Dna Replication **
Recruitment Of Mitotic Centrosome Proteins And Complexes **
E2f Targets ***
Mitotic Prometaphase **
Dna Replication **
Cell Morphogenesis Involved In Neuron Differentiation **
Axon Development *
Cell Cycle Mitotic **
Blood Vessel Morphogenesis **
Leukocyte Migration **
External Encapsulating Structure Organization **
Inflammatory Response ***
Lytic Vacuole Organization **
Degradation Of The Extracellular Matrix ***
Extracellular Matrix Organization ***
Collagen Formation ***
Collagen Biosynthesis And Modifying Enzymes ***
Interferon Gamma Response ***
Assembly Of Collagen Fibrils And Other Multimeric Structures ***
Epithelial Mesenchymal Transition ***
Interferon Alpha Response ***
Collagen Degradation ***
Integrin Cell Surface Interactions ***
