
GO:BP NES: HT1080 vs A549
Spearman rho = −0.10 | n = 3373 pathways
Both up
Both down
Opposite
NS
Presynapse Assembly
Positive Regulation Of Phosphatidylinositol 3 Kinase Protein Kinase B Signal Transduction
Regulation Of Presynapse Organization
Morphogenesis Of An Epithelial Fold
Attachment Of Spindle Microtubules To Kinetochore
Regulation Of Mitotic Sister Chromatid Segregation
Negative Regulation Of Nuclear Division
Metaphase Chromosome Alignment
Negative Regulation Of Chromosome Segregation
Mitotic Sister Chromatid Segregation
Dna Strand Elongation Involved In Dna Replication
Regulation Of Chromosome Segregation
Mitotic Sister Chromatid Separation
Rna 5 End Processing
Sister Chromatid Segregation
Chromosome Separation
Maturation Of Ssu Rrna From Tricistronic Rrna Transcript Ssu Rrna 5 8s Rrna Lsu Rrna
Microtubule Depolymerization
Maturation Of Ssu Rrna
Ribonucleoprotein Complex Biogenesis
Ribosomal Large Subunit Biogenesis
Rrna Metabolic Process
Rrna Processing
Ribosomal Small Subunit Biogenesis
Ribosome Biogenesis
