
GO:BP NES: HT1080 vs LNCaP
Spearman rho = 0.27 | n = 3373 pathways
Both up
Both down
Opposite
NS
Mitotic Sister Chromatid Segregation
Regulation Of Mitotic Nuclear Division
Negative Regulation Of Attachment Of Spindle Microtubules To Kinetochore
Mitotic Sister Chromatid Segregation
Attachment Of Spindle Microtubules To Kinetochore
Mitotic Nuclear Division
Nuclear Chromosome Segregation
Sister Chromatid Segregation
Chromosome Segregation
Spindle Organization
Negative Regulation Of Chromosome Segregation
Mitotic Spindle Organization
Spindle Assembly
Metaphase Chromosome Alignment
Regulation Of Mitotic Sister Chromatid Segregation
Centriole Assembly
Chromosome Separation
Chromosome Localization
Positive Regulation Of Chromosome Segregation
Type Ii Interferon Production
Regulation Of B Cell Differentiation
Interleukin 12 Production
Negative Regulation Of Viral Process
Positive Regulation Of Interleukin 12 Production
