ZFX	0.20	0.409	-0.13	0.728
RPS4X	-0.85	0.015	-0.52	0.124

Exploratory NTC-permutation FDR; finite-sampling corrected.

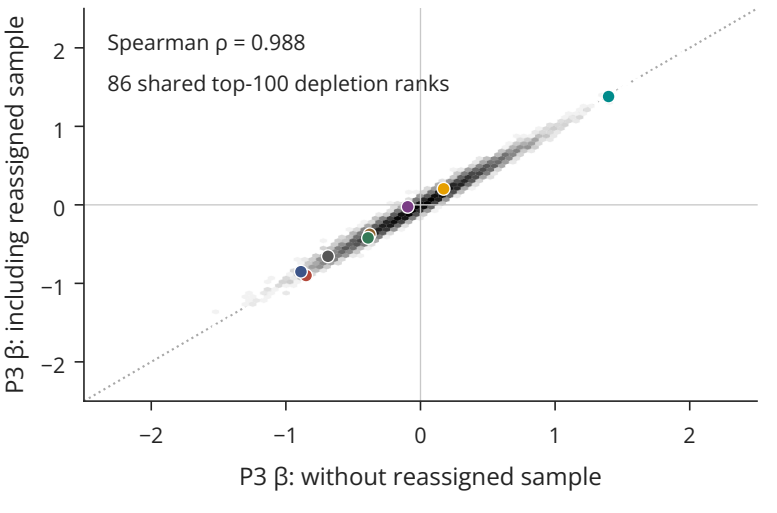

No interaction passes Wald FDR <0.05.

β <0: further relative LOY depletion from D0.

c

d

Natural-log β; baseline genotype and categorical passage terms included. One CTRL culture; repeated passages are not independent replication.
